

## Standard Edition

KRYSTAL™ DMS - Standard Edition is a future ready document management system that provides various document management features. It is easy to use, powerful and cost-effective document management software that allows companies to centralize the management, storage, retrieval and distribution of documents.

KRYSTAL™ DMS - Standard Edition addresses the needs of many vertical markets, including manufacturing, architecture, engineering, construction, utilities, universities, and government agencies.

## System Features

### Robust Document Management with Version Control

Document Management also enables you to manage document creation and revising. Through a check-out/check-in function, documents can be versioned and multiple revisions of the same document can be stored and archived

### Document Expiry and Notifications

Administrators can define default expiry of documents in a Document Class.

Users with required permissions can define expiry for each document and get notified in advanced via the notification system of KRYSTAL™ DMS – Standard Edition

### Document Sharing

Save money and time by simply sharing the document using built-in document sharing capabilities. KRYSTAL™ DMS allows users to share documents using email.

Users can share document as an email attachment from within KRYSTAL™ DMS.

### Accessible over the Internet, WAN or LAN

Being a completely web based solution, KRYSTAL™ DMS can be accessed over internet, WAN or LAN. The only client software to view your documents is a standard web browser.

### Platform Independent

KRYSTAL™ DMS software, completely written in JAVA Technologies and supports ORACLE , SQL SERVER and MYSQL etc. on any JAVA enabled Operating System.

KRYSTAL™ DMS is built in Java and uses an XML interface to exchange documents.

### File Preview, Mark-up, & Annotations

View, annotate, highlight, and blackout the content of most of industry-standard file formats directly in the web browser without the native applications installed.

KRYSTAL™ DMS- Standard edition uses the powerful **KRYSTAL™ - Document Viewer** to display the documents from the repository.

## System Features

### Recycle Bin

Standard Edition is equipped with Recycle Bin facilities. Administrators can easily view and restore the documents deleted by the users in a single click using the Recycle Bin module.

### Low Startup Cost

Low cost of ownership - an affordable, web-driven solution that doesn't require extensive service, support, networking or user training keeps the total cost of system to a minimum.

An affordable web-based solution requiring minimal licensing fees, networking infrastructure or training ensures low cost of ownership.

### Subscriptions & Notification Lists

Subscribe to document classes of interest to receive automatic notification via registered email address in the case of any modifications or specified events.

### Announcements Lists

Use an announcements list to post news, status, and other short bits of information you want to share with team members. You can set an expiration date for an announcement.

### Discussion Boards

Discussion boards provide a forum for conversing about topics that interest your team. For example, you could create a discussion board for team members to propose and discuss team activities.

### Document Security

Document classes can be defined for public access or can be restricted to user level. Users can view only view documents created by them if the class is defined with User level restrictions

Administrator can also define users to have restricted search and view access or full search and view access.

### Detailed Audit Reports

At any time, system administrators can review comprehensive system audit reports containing precise and detailed information about all domain activity and resource usage.

Trace every system event or operation to its exact origin to ensure strict compliance with regulatory standards.

### Browser Support

The following browsers are supported by KRYSTAL™ DMS:

- Internet Explorer 7.x, 8.x, and 9.x (32 bit and 64 bit)
- Mozilla Fire Fox 10.0 and above
- Google Chrome 14.x and above
- Safari 5.1 (Tested on Windows & Mac both)

Cost-effective Storage  
Smooth Retrieval  
Flexible Indexing  
Quick & Easy Search  
Disaster Recovery
